Subject: AIS Compliant Indiana Seal Couplings

**Valued Customer,**

“Public Law 113-76, Consolidated Appropriation Act, 2014 (Act) includes an “American Iron and Steel (AIS)” requirement in section 436 that requires Clean water state revolving fund (CWSRF) and drinking water state revolving loan fund (DWSRF) assistance recipients to use iron and steel products that are produced in the United states for projects that are funded through the assistance program.”

GPK Products /Indiana Seal have had requests for products and compliance letters that we meet the requirement of AIS. Our current shields on our SR and ASR couplings do not fully meet the requirement of the American Iron and Steel act (AIS).

To meet the requirement of AIS we have set part numbers that includes “AIS” in the part number, (ie. 102 - 44AIS, or 102-44AISSR) these couplings will be AIS compliant.

For information from Indiana Seal on price, lead time, availability or letters of compliance please contact our sales and customer service departments.

Thank you,

Jon Hoffman  
VP of Operations  
GPK Products / Indiana Seal Inc.
